

**UNITED SHORE PROFESSIONAL BASEBALL LEAGUE**  
**2025 INTERNSHIP PROGRAM**

The United Shore Professional Baseball League was founded by Rochester, Michigan-based General Sports and Entertainment, and it was the culmination of a 10-year effort by General Sports to bring professional baseball to the Detroit area. General Sports is led by President & CEO Andy Appleby, a former Senior Vice President of the Detroit Pistons and Palace Sports and Entertainment. General Sports previously owned and operated the Fort Wayne Wizards, a Minor League Baseball team in Fort Wayne, Indiana, and the Derby County Football Club, an English football (soccer) club in the English Premier and Championship Football Leagues.

The USPBL has given General Sports the opportunity to employ every best practice that its experienced team has learned over the past 35 years at the highest level of sports management and marketing. The USPBL opened Jimmy John's Field and its inaugural season of baseball in Utica, Michigan on May 30, 2016. In the inaugural season, the league's first three teams – the Utica Unicorns, the East Side Diamond Hoppers, and the Birmingham Bloomfield Beavers - played a 75-game schedule at the brand-new ballpark. The USPBL added a 4th team, the Westside Woolly Mammoths, in 2017. Our 2025 season will begin on May 16th and run through September 6th.

Our baseball teams are comprised of top-level college baseball players from around the country. Based on our experience with our professional soccer team in England, where developmental academies are prevalent, the players in our league are participating in the very first finishing school for baseball players. The USPBL provides state of the art coaching, the best in musculoskeletal training and strength and conditioning programs, the latest advances in sabermetrics and video analysis, as well as a focus on personal development by offering job/ internship opportunities with local companies and agreements with local colleges for continuing education courses. The quality of the players and the baseball are extremely high. The USPBL is scouted regularly by Major League teams, and we have had 52 players signed to contracts by MLB organizations since beginning operations in 2016. In 2019, the first of those players made it on to a Major League roster when former Utica Unicorn Randy Dobnak was called up to the Minnesota Twins. Dobnak started Game 2 of the 2019 ALDS for the Twins against the New York Yankees. At this time, six former USPBL players have made it all the way up to a Major League roster (with the Baltimore Orioles, Cincinnati Reds, Houston Astros, Milwaukee Brewers, Minnesota Twins, and Oakland A's).

The United Shore Professional Baseball League offers a robust internship program for college students. An internship with the USPBL offers students real-life work opportunities that are critical to gaining the experience necessary to be successful in the sports and entertainment business environment. Our executive staff is comprised of executives who have spent years working for various Major League teams, so this is a terrific opportunity for a substantive learning experience.
